About Us

Founded in January 2020, Biz-Asia Pvt Ltd is a multi-disciplinary sourcing and solutions provider headquartered in Malé, Maldives. Established by a team of seasoned professionals in supply chain management, our company was built on a foundation of technical excellence, ethical leadership, and a commitment to proactive service.

Though relatively young, Biz-Asia is led by industry veterans with decades of combined experience across engineering, logistics, and project management. Our global network of partners ensures consistent access to high-quality products and technologies, while our local expertise allows us to deliver tailored solutions with speed and precision.

We pride ourselves on a customer-centric approach that emphasizes lifecycle support, environmental responsibility, and operational efficiency.

OUR OBJECTIVE

At Biz-Asia we aim to provide outstanding products and services to our customers with speed, convenience, quality and ensure highest levels of customer satisfaction.

OUR VISION

To be the company that best understands and satisfy our customers, through professionalism, team effort and a winning network of partners.

OUR STRATEGY

At Biz-Asia Pvt Ltd, our strategy is built on delivering integrated, high-quality solutions across refrigeration, air-conditioning, machinery, lubricants, fire safety, and landscaping. We combine technical expertise with responsive service to ensure our clients receive not just products, but complete lifecycle support. We prioritize:

Quality & Reliability

Supplying industry-standard equipment, materials, and refrigerants with a focus on energy efficiency and environmental responsibility.

Project Management Excellence

Leveraging the experience of our engineering and operations team to deliver seamless installation, commissioning, and after-sales service.

Global Reach, Local Precision

Backed by trusted international partners and a strong logistics network, we ensure timely and dependable delivery across the Maldives.

Client-Centric Solutions

We foster long-term relationships through product education, customized offerings, competitive pricing, and proactive maintenance programs.

Our strategy is simple yet powerful: create value at every stage of the customer journey, through trust, transparency, and technical excellence.

OUR PRODUCTS & SERVICES

Biz-Asia Pvt Ltd offers end-to-end sourcing, installation, and lifecycle support across multiple industries. Our core service areas include:

Air-Conditioning Systems

We provide complete air-conditioning solutions, from design and installation to commissioning and preventive maintenance. Our systems are sourced from leading international brands and tailored to deliver optimal cooling, energy efficiency, and air quality.

Heavy-Duty Machinery

We supply and support mobile cranes, offshore cranes, and other heavy-duty equipment. Our services include handling, operational setup, and maintenance, ensuring safe and efficient performance across industrial and marine environments.

Lubricants & Engine Oils

We distribute high-quality lubricants and engine oils for industrial, marine, and automotive applications. Our portfolio includes trusted international brands, with reliable delivery across the Maldives to meet diverse operational needs.

Firefighting Equipment & Systems

We offer turnkey fire safety solutions, including machinery, accessories, and full system installations. Our services cover design, sourcing, and commissioning to ensure compliance and protection for commercial and industrial facilities.

Landscaping Consultancy

Our landscaping services include live plant supply, permit facilitation, and environmental coordination. We support both residential and commercial projects, ensuring aesthetic appeal and ecological harmony through expert planning and execution.

Firefighting Equipment & Systems

Brief:

We deliver turnkey fire safety solutions for commercial and industrial facilities, including supply of machinery, accessories, and full system installations. Our services cover design, sourcing, and commissioning to ensure compliance with international safety standards.

After-Sales Service:

We offer scheduled inspections, system testing, and replacement of critical components. Our team ensures ongoing compliance and operational readiness through preventive maintenance and emergency support.

Past Projects:

- Fire suppression system installation for a resort power station in South Malé Atoll
- Commissioning of fire pump and hydrant network for a mixed-use commercial building in Malé

Landscaping Consultancy

Brief:

We provide end-to-end landscaping services including live plant supply, permit facilitation, and environmental coordination. Our designs balance aesthetic appeal with ecological sustainability for both residential and commercial developments.

After-Sales Service:

We offer seasonal plant care, irrigation system maintenance, and replanting services. Clients also receive guidance on environmental compliance and long-term landscape health.

Past Projects:

- Native plant landscaping for a beachfront villa in Hulhumalé
- Green zone development and permit coordination for a hospitality project in Addu City

Refrigeration Equipment & Cold Room Solutions

Brief:

We handle procurement, shipping, installation, and commissioning of refrigeration systems and cold rooms. Our inventory includes eco-friendly refrigerants and energy-efficient technologies suitable for food storage, hospitality, and industrial use.

After-Sales Service:

We provide regular servicing, refrigerant top-ups, and system diagnostics. Emergency repair and performance optimization are available under our maintenance agreements.

Past Projects:

- Cold room installation for a seafood export facility in Felivaru
- Chiller system setup for a luxury resort's central kitchen in Baa Atoll

Environmental Commitment

Biz-Asia is committed to sustainability. We prioritize refrigerants with low or zero ozone-depleting potential (ODP) and low global warming potential (GWP). Our sourcing strategy favors energy-efficient systems and environmentally responsible technologies across all service categories.
